

About Botany 2013

The annual Botany Conference serves a diverse group of over 9000 plant scientists and students whose research and practice span the globe. Over 1000 academic and industry participants convene each year to share research, recent discoveries and explore multi-disciplinary topics in the plant sciences.

Conference Topics
Genomics - Evolution - Ecology & Conservation
Biodiversity - Taxonomy - Molecular
Medical - Climate Change

Participating Scientific Societies

American
Bryological and
Lichenological
Society

Sponsorships for Botany Conference 2013 are now available, and include social media and print advertising opportunities in the **American Journal of Botany**, the renowned scientific publication named one of the Top 10 most influential journals over the last 100 years in the field of Biology & Medicine.*

In addition to publishing ground breaking research each month, the **American Journal of Botany** will publish two special issues in 2013 on the topics of **Tropisms** and **Global Biological Change**. These issues will be high demand in Biology departments worldwide. Place your company in front of the eyes of thousands of biologists who read the **AJB**.
